According to the incident summary, there was a release of a substance; however, it claims that there was no volume released. More followup is necessary.

Date: 6/17/2014 Status: Inspection Author: O'Gorman, Brian

Updated Oil Volume:

Updated Salt Water Volume:

Updated Other Volume:

Updated Other Contaminant

Notes:

Arrived on location at 17:25. 69 degrees F, cloudy, east wind 20-30 mph. Observed site and took photos. Observations of the site indicated that the release occurred at a daylighting pipe west of the treater house. Heavy equipment tire tracks were evident near the pipe, and the pipe looked to have been replaced.

There were no indications of oil/gas impacts to the soil on or around the well pad or treater pipe repair area.
